

GA Climbing Scheme - List of Sites Summary (updated 3.6.2011)

Notes:

1. Location specific approval is not needed for: SPA holders at any location in their remit; commercial/local authority climbing walls.
2. There are many more sites to be included, notably popular crags which are almost all Level 3; however you don't need approval to operate at Level 3 crags (as you must have the SPA) so they are included for information only.

3. Any information regarding sites not submitted for the list would be most welcome!
4. Until a site has been visited, all towers and walls will be deemed Level 1, and all crags Level 3.
5. Please remember; just because we approve a wall at Level 1 doesn't mean that the owners accept Level 1 as a qualification. So if a wall is marked as not visited, please either call HQ for us to speak to the management, or if you have information yourself, let us know.

Public Climbing Walls
Scout & Guide Campsites (tower or wall)
Crags

Region	County	Site	Level	Surveyed (Y/N)	Approved?	Notes
